Jason Smith

Joliet, Illinois | jasonsmith10045@gmail.com | 815-491-2376

Objective and Introduction

- Prospective junior web developer that is currently looking for valuable experience in the web development/mobile development fields. I am eager to learn and to work hands on with whatever technology the task at hand requires, even if that means figuring it out on my own until I'm competent.

Skill and Highlights

- Familiar with Java
- Familiar with Git
- Have had exposure to HTML, CSS, Javascript, jQuery, Bootstrap
- Have had exposure to C++
- Have had exposure Android and Android Studio

Working Experience

IT Intern, G&W Electric - May 2016 to Aug 2016

- Worked with IT department on various projects relating to computer infrastructure. Helped deploy hardware and software to users. Handled minor tickets and updated the company intranet. Completed my first HTML/CSS/JS project which was an intranet video player called G&W I-Tube.

Maintaining Engineering Intern, G&W Electric – May 2015 to Aug 2015

- Revised company technical drawings using CAD as well other projects relating to improving existing products.
